

FUEL & WATER LOGISTICS

URAL TANKER

PROJECT BRIEF / 2026

CONFIGURATION OVERVIEW

A rugged tanker platform for fuel, potable water or approved industrial-liquid delivery in remote areas.

PROJECT CAPABILITIES

- Fuel, water or industrial-liquid variants
- Pump and dispensing options
- Compartment-layout consultation

TYPICAL APPLICATIONS

Fuel distribution / potable water / industrial liquids / remote fleet support

INDICATIVE PROFILE

DRIVE	6x6
TANK CAPACITY	Project-specific
MEDIUM	Fuel / water / approved liquid
DISPENSING	Configured to requirement

Indicative project brief. Final specification, availability, certification, export eligibility and commercial terms are confirmed individually.
